

Domain II- Competency 6 Professional Staff Evaluation & Development

Course-Embedded Internship Log – 2 Intern Plan

Course Number: <i>EDLD 5396</i> <i>Internship/Practicum in Administration</i>	Place of Activity My office, LCM High School	Time Spent on Activity <i>10 hours</i>
--	--	--

Description of the Activity	<i>Students will collaborate with the district site supervisor and develop the 12 month internship plan. Plans will be based on self-assessment findings, professional goals, and the unique needs of the intern and school.</i>
Personal Reflection/Learning: Focus reflection on the leadership skill. <i>(Minimum of 150 Words)</i>	<p>Creating the internship plan allowed my to organize my activities for the next several months into a workable plan that would allow me to ensure that I completed activities in all of the required domains in a timely manner. Without a plan, I would have a difficult time making sure that I completed all of the required activities.</p> <p>I am looking forward to completing my plan and the experiences it will afford, especially the opportunity to work with elementary administrators and gain experiences at another level. I also look forward to working with our superintendent, Dr. Pauline Hargrove. She is an inspirational leader with rich leadership experiences. She will provide a wealth of knowledge and guidance and be a valuable resource throughout the completion of my internship.</p>
